Re: Energy Conservation Cost Recovery Clause
FPSC Docket No. 20220002-EG

Dear Mr. Teitzman:

Attached for filing in the above docket on behalf of Tampa Electric Company (“the company”) is a supplement to the company’s Petition for approval of conservation cost recovery true-up and cost recovery factors for use during the period January 2023 through December 2023, originally filed on August 5, 2022.

In the August 5, 2022 Petition, the company indicated that, at that time, the company had not completed the analysis to determine all of the other clause factors that are utilized to calculate and establish Tampa Electric’s Price Responsive Load Management program (“RSVP-1”) rates for the January through December 2023 period. The company indicated in its original Petition that it would file the proposed RSVP-1 rates based upon the company’s 2023 projected clause amounts for the ECCR, Fuel and Purchased Power Cost Recovery, Capacity Cost Recovery, and Environmental Cost Recovery clauses after those factors were calculated. The company has now completed all the other clause factors that are utilized to calculate and establish the RSVP-1 rates for the January through December 2023 period and is including the proposed RSVP-1 rates in this supplement to its Petition.

Thank you for your assistance in connection with this matter.

Sincerely,

A handwritten signature in blue ink that reads 'Malcolm N. Means'.
