**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a Tampa Electric electricity customer. I received notification that FPL, Duke and Tampa Electric (the three largest electric companies in the state) intend to increase rates for customers. I am urging you to reject these proposals, deny corporate pressure and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates? Will you protest the level of corporate power these entities have within our government and communities?
