Mr. Bryant,  
Thanks for your response. I believe its outrageous that the energy monopolies continue to rise prices in an economy like this. On top of that solar companies are also forcing us to go green with also outrageous prices, this is a trap!

You can not continue to exploit THE PEOPLE! THIS MONOPOLIES HAVE TO GO!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.

Janella Alfonso
