**To:** Office of Commissioner Passidomo  
**Subject:** Docket No. 20220001-EI: No new electric rate hikes!

Commissioner Gabriella Passidomo,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

I just got solar panels last year and was so disappointed when my base bill with FPL went up 150% after just a few months--with your permission. I have never made more than 50,000 a year in my life, and this was a strategic investment with my limited resources that you cut the legs out from under. As I have talked to my parents and brother I have been discouraged at how much they are having to pay for electricity each month. Your decisions are becoming crippling burdens upon people who have to put up with this monopoly that you are supposed to keep in check. We have no other recourse. We cannot go shop elsewhere and get a better deal. We are forced to buy electricity and deal with the rates that you allow. You are our last hope. Please make the electric companies tighten their belts and work to be more competitive and less wasteful with our money.

Please also undo this Solar tariff that allows FPL to charge us more than anyone else for our base bill.

Sincerely,  
Kevin Dodge

Commissioner Gabriella Passidomo,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.

Commissioner Gabriella Passidomo,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.
