We have only been here since April 2022; however, the water system seems to be down more than up and running. There have been many Boil Water Notices and TO MUCH BLEACH in the water system. Why doesn't the water system be replaced instead of being repaired for many years as according to long term residents?

As far as the rate increase it is absolutely ridiculous that it is going up 68% or more. This is out of hand for Seniors who live on fixed incomes. I know that whatever is said, it will not do any good because you are just going to raise the rate anyway.

Correspondence sent to a Florida Public Service Commissioner, or any other public official and / or employee of the PSC, in the transaction of public business is considered a public record and is subject to Florida's Public Records Law. This means that Florida law generally requires the PSC to provide a copy of any such email or correspondence, upon request, for inspection and copying to any Florida citizen or any member of the media.
