Subject: Docket No. 20220001-EI: No new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

After documented RECORD PROFITS in 2020 and 2021, Florida's utility companies do NOT need to increase rates charged to customers.

I am writing as a concerned Florida resident and a electricity customer. I am urging you to rethink the request and NOT increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases that are demonstrated (back to those record high profits) to be unwarranted.
