**To:** Office of Commissioner Clark  
**Subject:** Docket No. 20220001-EI: No new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.

I urge you to reject these outrageous rate increases at this time.

In addition, tell FPL it is unfair to not have a grace period to pay the bill without a late fee.

**To:** Office of Commissioner Clark  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.

**Sent:** Tuesday, October 11, 2022 6:58 PM  
**To:** Office of Commissioner Clark  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-EI

I am an electricity customer in the southwest Gulf Coast of Florida. I understand that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

Excuse my French but WTF? These companies have made windfall profits over the last few years & yet you have consistently approved their rate increases. Your mission statement is to make sure utilities charge reasonable rates for consumers in Florida, is it not?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic, increased insurance rates (can you say 30% even before Hurricane Ian) & rising prices across the boards.

I urge you to reject these rate increases. Again I ask you to do your duty to your fellow Floridians by NOT allowing rates to be increased while these entities are currently earning record profits.
