Subject: Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Andrew Fay,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.

Commissioner Andrew Fay,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.

I am already over \$1200 behind on my electric bill I live in a small 900 sq foot single family home and the bill is outrageous. Stop the price gouging. Us Floridians who are born and raised here who are multiple generations of Florida can not afford to pay this!!

Commissioner Andrew Fay,

Docket No. 20220001-EI

Please don't allow Duke to raise rates yet again. I don't know if you realize how astronomically high rates already are compared to TECO but they are. We're in a mobile home and have to run out ac unit and have a person on 02. Our bills in summer are \$500-\$700 with Duke. My aunt in Tampa uses about the same KWPH with TECO and her bills are around \$170 per month. When we moved to the area Duke energy was reasonable also. Now rates are near as much as our monthly rent payment. It's unaffordable and scary as heck in today's economy to think of having our family member with no ac because we can't afford the insane amount Duke energy charges. Please don't hurt Florida's further by allowing this rate increase.

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.
