Subject: Energy companies

Mr. Clark,

I ask that you please deny the petition from Florida Power & Light, Duke Energy Florida, and Tampa Electric Co. To increase prices. I have solar panels and this year my bill went from \$12 to \$32 because Duke energy now has a minimum bill of \$30. So I'm giving them \$18 for free on top of helping the power my neighbor when I send energy back to the grid that I sell to them only for half of the cost I buy it from them. So from all sides I'm losing. If it wasn't so expensive I would get batteries and get rid of Duke. Please help us with this increase prices that only benefit the shareholders and not floridians.

Thanks
Ana Esquivel
