Subject: Docket No. 20220001-EI: Reject the new electric rate hikes!

Florida Public Service Commission Clerk,

Re: Docket 20220001-EI

I live in a 900 sq foot home, with NEW, Florida building code compliant, energy efficient windows and my electric bill for 8 months of the year already averages \$230.00 per month. Like a disproportionate amount of people living here, we are FULL TIME retiree residents on a fixed income.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?
