Subject: Docket No. 20220001-EI: Reject the new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

Subject: Docket No. 20220001-El: Reject the new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-

Energy companies' profits in Florida are in the trillions. Yet they are asking their customers to pay more. Please side with the average citizens by rejecting their ridiculous requests.

Another electricity rate increase would unfairly burden the public. Many are struggling as it is right now. So please tell Florida Power and Light that a rate increase at this time is out of the question.

Thank you in advance for your consideration and compassion for us.

I urge you to reject these rate increases.
