Good morning David Greene,

We will be placing your attached comments in consumer correspondence in Docket Number 20220001-EI, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you,

*Hiep Nguyen*

**Subject:** Docket No. 20220001-EI: No new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year DEF passed the minimum bill. "For those that aren't here to pay their fair share of the grid use". We purposefully built an energy efficient, net zero home to keep electric costs at zero with solar panels and extra insulation and energy efficiency. Our "reward" is now that we get billed almost \$20 each month for nothing. We put 100's of kWh in the grid each month and Duke thanks us by charging us a minimum use every month. It's just wrong. We have continued to figure out ways to use more energy so that we can get to a balance of actually zero and not be in a situation of paying DEF for getting nothing. The excuse for it being for the grid is BS. The grid use charge is clearly spelled out in the monthly \$12.45 utility

fee.

ALSO how in the world have we, the “sunshine state” not be top solar producer and still be almost totally dependent on fossil fuels? So, so pathetic.

I urge you to reject these outrageous rate increases at this time.

David Greene
