Subject: Docket No. 20220001-EI: Reject the new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke, FPUC, and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

I am disabled, I have lung, heart, muscle, bone and nerve diseases. I have to keep my home temperature set at certain temps, not too hot, not too cold because I have several immune disorders and get sick very easily. My husband and I are both retired, in our 70's and live on Social Security. We cannot afford all these increases, please, these Company's already make Billions. Don't let them Rip the American people off just to fill their overflowing pockets.

Thank you for listening, Judy Dunn.
