Subject: Docket No. 20220001-EI: No new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke, FPUC, and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

Presently, I can only afford my power bill if I do not turn my heat on unless the temperature goes below 40*. And in the summer, I turn the AC off when I am not home, and leave it on 80

when I am home. Another rate increase and I may not be able to afford food or medicine or Dr bills.

I urge you to reject these outrageous rate increases at this time.

Linda Jones
