Subject: STATUS OF INFORMATION SENT

Can you please advise if you require any clarification on the items sent for your review since a final decision on the rates is to be made on December 6, 2022.

Exhibit 3 - my letter to Bart Fletcher dated January 9, 2009 clearly states our questions about the size of the holding sewage pond. Please review this Exhibit and note Pages 3, 10 and 11. In 2008 when the rates were originally established also included in my e-mails sent to you were several letters and documentation of conversations with the PSC who at that time advised me nothing could be done and I needed to submit this information the next time they applied for an increase.

A reply would be greatly appreciated. Also, can you please confirm that when a final decision is made and the rates are established I will receive a copy? The copy is required to ensure that the 4 year reduction in rate established by PSC is processed by Anglers Cove West Ltd. They did not process the rate reduction in the previous established rates until we brought it to their attention.

Thanking you in advance for your help in bring our concerns to those individuals who are making the decision on the proposed rates.

Marilyn Cousineau, Treasurer, Anglers Cove Home Owners Association
