Subject: 13% raise in 2023 Duke energy rates

Duke Energy is making over \$18 billion in profits this year and last year.

<https://www.macrotrends.net/stocks/charts/DUK/duke-energy/gross-profit#:~:text=Duke%20Energy%20gross%20profit%20for%20the%20twelve%20months%20ending%20September,a%201.53%25%20decline%20from%202019.>

I fail to see, based on that, why the PSC is approving a 13% rate hike on consumers. Many, like myself, are struggling to pay the bills as they are now.

Please explain why are you are granting the rate increase to a company who clearly does not need it
