Subject: FPL charges annually increased.

Sent from my iPhone My name is Marilu Perez, Miami resident. I would like to someone evaluates the increase's rate for FPL since it is abusive and ridiculous with the economy in recession and the cost of the life too high and the only increases in 5 years from our current job maybe under 5 percent. How a primary person or parents in the family put food in the table? FPL is a monopoly(not competency) since no other option to be changed. I assumed that also politicians are pushing people to the street, Miami Dade Taxes were increased severely this year too, alone with home and auto insurances. But this is the Community that we live and vote for these leaders. For all of above we think residents and citizens are negative impacted and we feel abused. Is the FPL has expenses as a company comparatively we have more expenses as individuals and family's parents and also with elderly parents under our care too. Respectfully M. Perez.
