To whom it may concern,

I am writing to express my ongoing deepest disappointment that the electrical utility industrial sector continues to mismanage the electrical infrastructure throughout the State of Florida despite given unfettered access to elected and appointed government officials and agencies in the furtherance of policies and agendas, which consist of pursuing poorly thought out sourcing of energy resources and a decidedly anti-consumer stance with the rate-paying public across the board. Ongoing investigations continue undercover the long-standing practices by these captains of industry to extract ever larger fees and electrical rates to aggrandize their oversized ambitions by direct and indirect political arrangements in backrooms.

The attached documentation clearly indicates the ongoing conditions of the electrical infrastructure in the State of Florida as well as the lengths to which these captains of industry try to influence governmental policy makers.

Please place these observations and articles in the appropriate docket to underscore the overwhelmingly calculated cold-hearted manner that these captains seem to influence the very elected/appointed representatives that should, instead, be seeking to comfort their constituents day-to-day hardships to pay for the aggrandizement of these out sized economic sectors.

Thank you for your time in these matters and hope to hear from you soon.

Sincerely,
Beatrice Balboa

Dear Ms. Balboa:

This is in response to your December 21 email to the Florida Public Service Commission (FPSC) regarding Florida Power & Light Company (FPL).

We will add your feedback and the article you shared to Docket 20210015.

If you have any questions or concerns please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Ellen Plendl

TALLAHASSEE - The state Supreme Court on Wednesday scheduled arguments on Feb. 8 in challenges to a decision by regulators to approve base-rate increases for Florida Power & Light.

Groups filed two challenges at the Supreme Court after the state Public Service Commission in October 2021 unanimously approved a settlement that allows FPL to raise electric rates over four years.

FPL reached the settlement with the state Office of Public Counsel and several organizations that took part in the case.

The Office of Public Counsel represents consumers in utility issues.

One of the challenges was filed by the group Floridians Against Increased Rates, while the other challenge was filed by the groups Florida Rising, the Environmental Confederation of Southwest Florida, and the League of United Latin American Citizens of Florida.

Florida Supreme Court slate arguments on FPL rates
