Subject: Electric Rates

I see you are again preparing to raise our energy rates. I can assume you will because I've never seen you miss an opportunity to do so. You cannot be unaware of the challenges Floridians face with rising prices on EVERYTHING. You authorized a rate hike in the last quarter. Is this something we can expect every 3 months?

I understand you are all appointed, so your actions effecting me have no effect on you.

That being said,

Florida has the SECOND HIGHEST utility cost in the country! Only Hawaii has higher utility bills. This is something in your control. I'd like you to decline this quarterly rate increase, and look forward to your prompt reply Thanks for your time
