Subject: The citizens of Florida cannot afford a increase in electrical bills

Florida Public Service Commission,

The citizens of Florida cannot tolerate another electrical bill increase is as proposed up to 20%. Citizens are already going without necessities in Florida and now a 20% will make a bad situation worse. It's the fault of the Energy companies for not mitigating the distribution system, not the customers! All mitigation and upgrade of the distribution system should come out of the Energy companies profit-not the citizens' of Florida bank accounts.
