Subject: Proposed Energy Increase

Hi,

I just received notice that you may increase energy prices to residents in the state of Florida. I am sending this email to voice my opinion and say you should NOT approve the increase.

With inflation skyrocketing, and employers not giving cost of living increases, the average person cannot absorb the increase.

Currently, the government is stepping in and subsidizing folks on social security/Medicare, by paying their entire electric bill. We have a financially flawed system.

We all, by now, should know that electricity should be free. Tesla proved that many, many years ago. All the D.U.M.B's run-on free energy. Please rethink your decision.

Best,

Sheryl Katz
Florida Resident
