Subject: FPL rate hike.

To whom it may concern,

Once again FPL is attempting to raise our rates. Last year we experienced a 40% rate increase with a promise that the rate would decrease slowly over the next 5 years and now we are finding out that the rate will continue to increase. This increase will come at a time when many Floridians are strapped financially by increases in prices at the grocery store and extreme increases to the price of housing. We the people can not afford to continue paying more for electricity especially when we were promised the rate would begin to decrease. Please deny FPL's request to once again raise our rates.

Thank you,  
Nick Noel.
