Subject: Proposed FPL Rate increase for Panhandle area

I know its early in the process but I read FPL will want a substantial rate increase to cover cost of natural gas. Last I saw was the the Natural Gas market has collapsed and is 1/3 the price that it was at its peak. If anything we should be getting a rate reduction.

Also we in the Panhandle are to pay for re-building SW Florida? I have a suggestion. In the rebuild process require FPL to bury the power lines so we don't have to keep paying and paying to rebuild.

And finally the rates in the panhandlet are way more than the rest of the state. We need relief - bring our rates down to what the rest of the state pays.

At anyrate (no pun intended) please advise how and when I can file a formal comment on the proposed FPL rate hikes.
