Subject: FPL Rate Increases

Hello,

I wanted to write just a brief note to Florida Public Service Commission regarding FPL recent rate increases. Although, I realize this email will fall on deaf ears.

Florida Power and Light has a fourth quarter growth rate in (2019) \$4.6B, (2020) \$4.4B, (2021) \$5.0B.  
2022 Q2 growth rate \$5.2B.

(2021)

Net Income #3,573,000,000  
Gross Profit \$12.5B (2021)  
Revenue \$18.0B

My numbers may not be exact but the bottom line is FPL like many companies are profiting from consumers who are struggling. Rates are increasing everywhere but income is halted therefore becoming extremely difficult to meet day to day needs. I don't understand why companies like FPL need to make huge profits when consumers are drowning.

Why would Florida Public service commission approve these rate increases??

Regards,  
Tina Cozzolino
