**Subject:** RE: Docket 20210098  
**Importance:** High

Dear Honorable Commissioners

I hope that you will forgive me for contact you directly. I know you have busy schedules. I would appreciate if you would pay attention to this unorthodox rate increase that breaks any norm that I knew about in the last 52 years of work experience. May I please ask of you to read my PART I and PART II Comments before reading the above attached Part III and two included exhibits, I apologize for hand writing on the exhibits. I could not afford proper software. I think my suggested \$16.61 rate is in line with inflation and appropriate for this utility.

Please accept my apologies if there is a short coming in my English Skills.

You have my prayers, I am certain you will make the right decision, may god be with you.

Sincerely

Al Hashemi  
500 Westover Dr. Ste. 3615

February 5, 2023  
Ref: AI-FPSC-2023-431

To the Honorable  
Commissioner Andrew Giles Fay – The Chairman  
Commissioner Gary F. Clark  
Commissioner Art Graham  
Commissioner Mike La Rosa  
Commissioner Gabriella Passidomo

Dear Honorable Commissioners,

I, Al Hashemi, am a resident of Tropical Park. In follow up to my Part I comment referenced under this Docket as D# 11829-2022 and my Part II Comment Referenced D# 00437-2023 which I would invite the Hon. Commissioners to please read D# 00437-2023 which includes both Parts and important to see details brought to your kind attention.

I have had a chance to review some of the great work that the Hon. Commissioners have done in the past. I am encouraged that you will use the same diligence in regard to this very small utility.

I would appreciate if you would look at Table 3 provided in Part II and with small changes I have included it here again. I think it would not be appropriate for me to

repeat what I have said earlier. I like for the Hon. Commissioners to look at these numbers from a different perspective.

1. Based on the Auditors number crunching which very much is in line with humble mine. The staff has increased the O&M to \$25475 from Auditors \$7582. An increase of 236%. I have to give the staff a high five. They are no less than a magician.
2. While the Hon. Commissioners think about Item 1, please be aware that AUI did not have any O&M larger than \$13500 in 2021. Nor their O&M by Auditor's calculation was more than \$7582. For 2020. Notwithstanding that 2021 numbers included a lot of pork.
3. Here the issue is a matter of principal, I just could not close my eyes, it took me less than 10 minutes to figure out something is wrong and so far I have spent another 12 hours trying to explain it with English as my second language.
4. I would ask the Honorable Commissioners rely on the findings of Auditors. Just about all of what staff has stacked up to get to \$25475 is, please excuse my French, pure pork, double and triple counting, and multiyear sums zoomed into one year.
5. Looking at the work of the Hon. Commissioners, it would not be appropriate to waste your time, and you would ask the Auditors to go over the numbers and they will come to the same conclusion as this humble me has.
6. Therefore, I would ask you to consider my inflation adjusted rate of \$16.61 per month instead of Staff's \$21.33 (Staff Reduced to this number in its final report)
7. There is an Environmental Required Test done once every three years in the order of \$3500++ which was not done by the AUI since its registration, first such test was done in 2021 and the next test should be done in 2024. Since the

test year was 2020 for this docket, this does not apply and if it would apply only 1/3 applies not the full amount as staff has added (pure pork).

8. The matter of salary and wages the only legal payments made are those with 1099 and there is no other payroll, staff adding another \$5000++ plus as management fees and salaries, simply the owners are paying themselves not once twice and not to mention now they have another \$3600 in accounting fee which is another form of management fee which they are already charging for the purpose of this utility. Those unaccounted payment that has no IRS record are just another form of pork added by staff. What happens when AUI manage the utility well, which seems they are doing so? 90% of the work is actually done by EML Environmental Services. Which is about \$7500 with all the supplies and maintenance, the rest after deduction of income taxes (none) or payroll taxes (none), and regulatory fees. All these extra pork can be charged against profit which by my calculations are as follows: they are making well over 130% +/- in profit without any increase in rate, with increase to \$16.61 as humble me have suggested that profit increases to about 160% +/- and increasing it to what staff suggests then you are looking around 250% +/- profitability. Then they can pay themselves as dividend from the profit or hire accountant, which really not needed, and still they will be making a lot more than 12% with what is left.
9. I have specifically added Exhibit II which is the pages F3, F4, and W3 for 2020 (yellow marked) and 2021 (orange markers) with comments in red. Please kindly review.
10. I have also included Exhibit III which is the reported 2020 expense schedules, which is marked with green marker. This shows the amount of pork that is

already in the AUI reports which from stand point of IRS some not valid as given above.

Table 3 - Discussion of Extremely High Operating and Maintenance Cost by CS							
Item No	Description	Sub - Amount	Adjust-ments	Final Amounts	AH Adjustment for CS's Numbers	AH's Final After Adj. for CS's Numbers	Explanation

The Hon. Commissioners should ask themselves this question, why should a very small entity gets multiple corporations and land trusts of her own involved?

Interestingly all have the same ownership (Husband and Wife) and address. It all point to substantial increase in profitability against the poor folks who live in this mobile home park. These folks had their minimal social security payments increased by 8.7% on ground of inflation and the unwarranted increase of 40% by Staff which I have responded in Part I and Part II makes humble me like others pay all of 8.7% to this
