Ms. Elisabeth Draper
Chief of Economic Impact & Rate Design
Florida Public Service Commission
Bureau of Electric Regulation
Division of Electric and Gas
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Dear Ms. Draper:

Orlando Utilities Commission ("OUC") is submitting with this letter a new electric vehicle charger tariff to the Florida Public Service Commission ("FPSC") for your review. On March 7, 2023, OUC staff will be presenting the proposed tariff to the OUC Board for adoption. The tariff will become effective May 1, 2023.

OUC is also submitting with this letter a corresponding tariff for the City of St. Cloud ("St. Cloud") that will become effective the same time as OUC's, May 1, 2023.

Level 3 Public Charging for Electric Vehicles

OUC Revised Tariff Sheet No. 5.000 and Original Tariff Sheet No. 5.470

St. Cloud Revised Tariff Sheet No. 7.000 and Original Tariff Sheet No. 7.470

In order for OUC to continue supporting the advancement of electrification and the anticipated growth in demand for public charging of electric vehicles, OUC is opening its first public level 3 electric vehicle charging hub. This hub is projected to open in May 2023 with 20 Level 3 chargers bringing the total number of OUC owned Level 3 chargers to 23. Customers utilizing these Level 3 chargers or future OUC owned Level 3 chargers will be billed on this new rate which consists of a 35¢ per kWh charge and a \$1 per minute vehicle idle fee with a 10-minute grace period. Due to the immaturity of this business, customer choice in charging stations, and lack of utilization details this rate is based on current market pricing.

I have enclosed one copy of the revised tariff sheets in legislative form and final form. If you have any questions, please do not hesitate to call Lawrence Strawn, Manager of Corporate Analytics and Planning, at (407) 434-2187.

ORLANDO UTILITIES COMMISSION

Sincerely,

A handwritten signature in black ink, appearing to be 'W. Christopher Browder', written in a cursive style with a long horizontal flourish extending to the right.

L3EV

LEVEL 3 PUBLIC CHARGING FOR ELECTRIC VEHICLES - PILOT RATE SCHEDULE L3EV

Availability:

Available throughout the entire territory served by OUC where customers charge electric vehicles at certain OUC owned public electric vehicle (EV) fast charging stations ("the stations") where OUC provides charging service billed through a third-party billing provider.

Applicable:

To any person ("user") who accesses the stations.

Character of Service:

EV charging service will be available at OUC owned stations open to the public, rated at 50 kW or greater.

Charging Rates:

Energy charge: 35¢ per kWh

Vehicle idling fee \$1.00 per minute following a ten-minute grace period

Charging network fees as determined by the charging station network provider may apply at certain stations.

State Sales Tax

State Sales Tax is applied to the charge and shall be determined in accordance with Florida's sales tax laws. In those counties that have enacted a County Discretionary Sales Surtax, such tax shall be applied.

Terms of Payment:

Payable through OUC's third-party billing provider. Users must register an account with OUC's third-party billing provider, including payment information, prior to charging the vehicle. Users will have the ability to obtain a detailed receipt of the charge session through OUC's third-party billing provider.
