**Subject:** RE: Dockets #20230001, #20230010, and #20200181

Good morning Jean Farris,

We will be placing your attached comments in consumer correspondence in Docket Numbers 20230001-EI, 20230010-EI, and 20200181-EU, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you,

*Hiep Nguyen*

**Subject:** Dockets #20230001, #20230010, and #20200181

Dear Florida Public Service Commissioners,

We DESPERATELY need your help to stop the UNFAIR, endless electricity rate hikes in Florida and ACTUALLY save consumers money by fixing the FLAWED energy efficiency rule.

On March 7th, you will hear UNCONSCIONABLE requests from investor-owned utilities to ONCE AGAIN raise the electricity rates for Florida consumers. We urge you to DENY the TOTALLY UNWARRANTED mid-course fuel corrections, minimize storm recovery costs, and FINALLY fix the energy efficiency rule to meet the national standards.

Florida utilities have been UNFAIRLY charging consumers for the costs of THEIR VERY OWN VILE CONTINUED unsustainable reliance on CLIMATE-DESTROYING, dirty fossil fuels. This Commission has REPREHENSIBLY approved rate hike over rate hike that UNCONSCIONABLY takes all risk away from these MONEY-GRUBBING, SELF-SERVING, WASTEFUL for-profit institutions and ABOMINABLY shifted the burden to Floridians. That needs to STOP IMMEDIATELY!

ALL utilities need to ONLY invest in 100% clean, renewable energy infrastructure from solar, wind and tides and IMMEDIATELY STOP wasting our money on POISONOUS, dirty fracked gas, coal, and nuclear infrastructure. ONE HUGE REASON THAT they aren't doing this, though, IS CLEARLY because every SINGLE hike they ask for gets approved! Where,

THEN, IS THEIR INCENTIVE to DO WHAT IS RIGHT for Florida's energy systems, Florida ratepayers AND OUR ONLY PLANET when they never have to foot the bill!?!

THE TRUE MISSION of the PSC HAS ALWAYS BEEN "To facilitate the efficient provision of safe and reliable utility services at fair prices." Our current DANGEROUS, UNSUSTAINABLE fossil fuel energy system is NEITHER safe or reliable, and the prices are DEFINITELY NOT FAIR!

Many folks have to decide between paying their electricity bill or paying for other essentials like rent, food, and medicine. That's not right, and we need your help to change things.

Please help to end Florida rate hikes and pass cost-saving measures for Floridians.

On March 7th, I urge you to:

- Deny the midcourse fuel corrections. (Docket #20230001)
- Minimize the storm recovery costs to only those storms that impacted the service area. (Docket #20230010)
- Fix the energy efficiency rule to meet national standards that will reduce the burning of fossil fuels and save consumers money. (Docket #20200181)

Sincerely,

Jean Farris
