**Issue 3:** Should the Commission approve FPL's proposed interim storm restoration recovery charge tariff?

**Recommendation:** No. The Commission should deny FPL's proposed interim storm restoration recovery charge tariff sheet No. 8.030.7. The Commission should approve FPL's alternate storm charge calculation and associated tariff sheet as shown in Attachment A of staff's memorandum dated February 23, 2023, effective with the first billing cycle of April 2023. Furthermore, effective with the first billing cycle of April 2023, tariff sheet Nos. 8.030.4, 8.030.5, and 8.030.6 should be cancelled, as shown in Attachment A of staff's memorandum dated February 23, 2023. The alternate storm charge calculation avoids significant disparities in surcharges among customers of one, consolidated utility, reduces regulatory lag and interest payments, and mitigates the potential for overlapping storm recovery charges in the future. The interim storm restoration recovery charge should be subject to a final true-up.

**APPROVED**

**Issue 4:** Should this docket be closed?

**Recommendation:** No. This docket should remain open pending final reconciliation of actual recoverable storm costs with the amount collected pursuant to the interim storm restoration recovery charge and the calculation of a refund or additional charge if warranted.
