Subject: Say NO to Duke Energy increased fuel charge

I was notified that Duke Energy is requesting an increase in the fuel surcharge that it's customers pay.

I request that it not be approved. The cost to consumers never seems to go lower when fuel charges go down and the fact that natural gas prices have plummeted, the current fuel charge can adequately cover the increased cost Duke was charged last year.

Also, Duke has been investing in solar power and there is no fuel needed to operate those facilities.

I appreciate your attention in this matter.
