Governor,

I just received an email from FPL explaining the upcoming rate hikes that are needed to recoup the money from the storm damage last season.

Why isn't this cost covered by FEMA?

RE: FPSC Inquiry 1417722C

Dear Mr. Pfeifer:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

You expressed a concern about recent rate increases. On March 7, 2023, the FPSC approved a mid-course correction to the fuel factors and granted preliminary interim storm restoration charge for FPL.

The adjusted fuel factors reflect unrecovered fuel costs incurred in 2022. The interim storm restoration recovery charges are costs associated with named storms and will replenish each utility's storm reserve fund. Interim storm restoration charges are approved for a 12-month recovery period and are subject to refund, with interest, pending further review once the total actual costs are known for each utility.

FPL's approved charges include the new fuel factor and the preliminary approval for recovery of \$1.5 billion in interim storm restoration costs for Hurricanes Ian and Nicole, as well as the remaining costs from Hurricanes Michael, Sally, and Zeta.

We appreciate you sharing your views and will add your correspondence to both Dockets 20230001 and 20230017 regarding the mid-course correction and the storm restoration recovery, respectively.

If you have any questions or concerns please contact Ms. Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray
