John,

Which protest number to use?

Thanks

C.Griffin

Hello -

FPL wants to increase their rates by 10%, pending **your** approval in the midst of a recession. However, you just approved a 5 billion dollar rate increase in 2021. They charge us customer fees, when some of us have no choice in providers, storm fees (which you also approved), and storm hardening projects (you also approved).

People are struggling to pay their utilities today, especially the elderly. With your help, FPL continues to yield million dollar profits. **You cannot and should not approve this rate increase.** Expect more emails from concerned citizens regarding this matter.

Regards,
Concerned Citizen
