Re: Docket No. 20220066-WS - Application for increase in water rates in Washington County, by Sunny Hills Utility Company – Update on Pro Forma Items

Dear Commission Clerk,

In accordance with FPSC Order No. PSC-2022-0335-PAA-WS, North Florida Community Water Systems (Formerly Sunny Hills Utility Company) hereby submits its update on the improvements at Well No. 1.

The generator has been installed and has been placed into service.

The iron filtration has been installed. However, it is scheduled to be connected and piped into the treatment plant within the next two weeks. The utility is still waiting on a step down transformer. This has been delayed due to supply chain issues. As soon as it is received, an electrical crew will be going to connect the power so we can make a test run of the filters before installing the media.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Rendell", is written over a light blue horizontal line.

Troy Rendell
