Subject: ELECTRIC BILLS

Most of us who live in Florida can not afford to keep up with the outrageous electric bills. I for one am a 70 year old woman who just received one time help for LIHEAP in the amount of \$3,900.00 because Duke Energy put me on a \$500.00 a month payment plan! My house is about 2400 sq. ft and everything is electric. I barely have any lights on and I have now been keeping my thermostat at 78 and on the hot days, I am boiling!!

Look on Face Book "Clermont Word Of Mouth" and you'll see that everyone responded to my post about what they are paying for electricity and all said \$400-700 a month.

I moved here last year from Illinois and in Illinois LIHEAP helps seniors on a monthly basis, not on a one time basis like in Florida.

Now we heard that Duke is once again planning to raise the rates!!

We need some intervention.

Thank you,
