RE: Response to Data Request for the 2023 Local Competition Report

Dear Mr. Hinton:

Per your request, this letter provides information concerning the number of residential telephony customers served by Florida Internet & Television (FIT) members, to assist the Staff in compiling the Commission’s Annual Competition Report to the Florida Legislature. FIT members providing line count information for aggregation into the total include Breezeline, Comcast, Cox and Mediacom.

The Commission does not regulate VoIP telephony services. FIT is voluntarily providing residential subscriber line count information so that the Commission and Legislature will have the most accurate picture of the state of telephony competition in Florida. The information concerning VoIP line counts is extremely commercially sensitive. To preserve confidentiality, FIT is reporting aggregate numbers of customers for its member operators in the attached Exhibit A.

Please be advised that by providing this information on a voluntary basis, FIT and its member companies do not waive their rights regarding the Commission’s lack of jurisdiction over VoIP.

We hope that you find this information useful for the Competition Report. FIT and its member companies look forward to cooperating with the Commission in ways that respect both the Commission’s obligations to the Legislature and member companies’ regulatory status under state and federal law.

If you have any questions regarding this matter, please contact me at (850) 681-1990 or bswanson@internetandtvfl.com.

Sincerely,

Brad Swanson
CEO and President
