*Re: Docket No. 20220201-WU – Request for Uniform Miscellaneous Service Charges*

Dear Commission Clerk,

Florida Community Water Systems, Inc. (FCWS) hereby submits its request for uniform Miscellaneous Service Charges (MSC) for all of the systems in the above referenced docket. In support of this request FCWS offers the following.

Several of the systems have not had MSC set based upon actual costs. These systems had these charges approved during the transfer process utilizing the existing charges. All of these systems are now part of a consolidated corporation that utilizes the same personnel to perform these services. The Lakeside system recently had MSC established in PSC Order No. PSC-2017-0491-TRF-WS, issued December 28, 2017. These MSC have subsequently been indexed over the past several years.

The FPSC has also approved MSC for several of the “sister companies” as well. Specifically, in Order No. PSC-2020-0086-PAA-WU, issued March 24, 2020, the FPSC approved MSC for Gator Waterworks, Inc. In doing so, the FPSC stated, “The requested charges are consistent with those recently approved for its sister companies LP and Country Walk.”

FCWS believes that uniform MSC will reduce customer confusion, as well as recover the actual costs of providing these services. It is not practical or cost effective to have separate MSC for each system, again since the same staff are performing these services. FCWS requests that all of the systems included in this docket be allowed to charge the same currently approved MSC as the Lakeside water and wastewater systems.
