Subject: FPL Charges

Dear PSC,
I am at a loss as to how my FPL bill continues to increase on lower year over year usage.

For example, May Usage 2022 541 Kw
May 2023 Usage 530 Kw.

Yet, my bill increased a whopping 13.6%.
The bill claimed that the PSC approved a new fuel reduction effective May 1st, 2023. Really.
Stop with BS and show the percentage INCREASE in our bills year over year.

Bills are up by a massive amount year over year and fuel prices are DECLINING.

Start looking out for the consumer. You're killing us.

Sincerely,

Joseph Healey
