**Subject:** FPL Rate Hike South Fla.

I'd like to register my complaint about the rate hike by FPL in South Florida that your commission approved. I think you misjudged the impact of the rate hike. My bill has greatly increased at a time when inflation and recession fears abound.

FPL's net income was 3+ Billion dollars in 2022. This is greater than 2021. If you are so concerned about FPLs profits, then deregulate electric in Florida. Let's have some competition.

I realize that FPL pays millions to politicians from both parties but its time that politicians and commissions, like this one, server the interest of the American people and not that of corporations who fund their campaigns.

Reverse this rate hike now and serve the best interest of Floridians. Rest assured we'll vote for anyone who will stand up to these "regulated" corporations.

Kevin M Holan.
