how much is florida power and light pay you people to allow these rate increases, this is a public company with shareholder the public should not be paying to repair there equipment this what insurance is for nor should we

pay to upgrade there equipment if we are paying full rates, if they want to save money they should spending money on useless TV commercials when they are basically monopolies and ending them giving money to the legal bribe system called campaign contributions such give money to elect some douche bag politican and paying off you douche bags that allow our rates to about double in 3 months, all 5 of you should be put on trial for public corruption
