Shame on each and every one of you for pandering to Duke energy and allowing MULTIPLE rate increases. Do you not understand that people are struggling financially as it is? Is there a particular reason you think it is acceptable to increase rates over and over and over again?

This is shameful. Why don't you try and get some competition in here so people aren't paying so much for electric? And by the way, I have gas for hot water and cooking, so this is purely electric.

Last July I used 2044 kwh and my bill was \$356.42
This July I used 1948 kwh and my bill is \$389.20.

It's disgusting and greedy.
