My power bill went from \$114.00 to \$202.98 this has got to stop. I am a widow and a senior citizen I cannot afford this kind of this kind of power bill. I wash once a week I cook maybe three times a month and my thermostat stays on the same temperature, something is very wrong. With everything else being so expensive we the people can't pay outrageous power bills like this. We can barely make ends meet as it is. Do something about this please.
