John,

Please send to clerk's office. I am awaiting your response. This is one Shonna stated was a protest Case# 1424230C, I will add the notes once I receive an email back from you.

Thanks

Consina

**Subject:** FPL rate increase from June, 2022 to June 2023

To The PSC:

I took a careful look at our recent FP&L invoice and compared the usage from June of 2022 (3336 kWh used) to June of 2023 (3329 kWh used) and noticed the amount charged was almost 15% higher. The Public Service Commission approves these increases, and can you explain how you can justify such an increase within this 12-month period.

NOTE: FP&L advertises how great they are and how much we are saving on our electric bills, especially with all their solar investment. It would appear the cost of advertising should not be included in the rate increase, if it is, nor their investment in solar if electric bills are drastically increasing and should come out of their profits.

Kindly respond as to the justification for the PSC to approve these rate increases.

Additionally, when is the next PSC public hearing to receive public input on FP & L rates?

Respectfully,

C. Douglas Coolman
