I just heard in the news that florida is selling solar panel energy to China. And the PSC is allowing Fpl to raised rates because the solar energy isn't been used in our state.

I cannot believe that Fpl and the PSC is in bed with China.

Just listen to Dave wash. I am going to tell every news outlet and put it on social media that Fpl is ruining our economy because they are in bed with China.

Nevermind that Fpl is using state land for this solar farms and floridians aren't enjoying any savings instead are been ripped off by Fpl.

Shame on psc and it's commision.
