Subject: FPL Rate Increases

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I am a Pembroke Pines homeowner for over 30 years and have been satisfied with my electricity provider until recently. They have increased their rates 32% since 2021 and I find that to be an extremely high increase in a very short period of time. I received an all time high bill from them this month.

FPL is a very revenue rich company and are not justified to raise rates 32% in a 2 year period. It's too bad that they are a monopoly or they would simply be out of business if there were any other choice.

I am hopeful that your commission can review these rate increases and take necessary corrective actions to resolve FPL's unjustified actions. Thank you.

Angie Puett
