CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Just curious why FPL can raise rates 28.3% for Non Fuel charges over past 8 months?

For non Fuel charge portion of bill I paid .0737/kwh in oct 2022 current bill is ,0945/kwh

Nextera (NEE) made \$4.4 Billion in profits on \$20.9 Billion in revenues in Fiscal 2022

Can I assume they have untethered ability to gouge on the non Fuel port of their bills?
