Re: Conservation Cost Recovery Clause
FPSC Docket No. 20230002-EG

Dear Mr. Teitzman:

Attached for filing in the above docket on behalf of Tampa Electric Company ("the company") is the company's Revised Preliminary List of Issues and Positions, which was originally filed on August 25, 2023.

In the August 25, 2023 Preliminary List of Issues and Positions, the company indicated that, at that time, the company had not completed the analysis to determine the other clause factors that are utilized to calculate and establish Tampa Electric's Price Responsive Load Management program ("RSVP-1") rates for the January through December 2024 period. The company indicated in its original Preliminary List of Issues and Positions that it would file the proposed RSVP-1 rates based upon the company's 2024 projected clause amounts for the ECCR, Fuel and Purchase Power Cost Recovery, Capacity Cost Recovery and Environmental Cost Recovery Clauses after those factors were calculated. The company has now completed all the other clause factors utilized to calculate and establish the RSVP-1 rates for the January through December 2024 period and is included the proposed RSVP-1 rates in this revised Preliminary List of Issues and Positions.

Thank you for your assistance in connection with this matter.

Sincerely,

A handwritten signature in blue ink that reads 'Malcolm N. Means'.
