Hello,

We have lived in Wedgefield since 2006, and was in for quite a shock receiving our first few water bills.

Moving from Brevard County where on average my water bill was \$36.00 per month even watering my plants.

It is my understanding that Pluris charges us more than most places in the entire state and we cannot even drink the water and bathing in it, is questionable to make us very sick.

Given a choice of either your house tax goes up thousands of dollars for years to come to get rid of Pluris or we double your bill... that is already outrageous to begin with?

How is this fair to all of us who live here?? Especially in the current economy.

Even if we wanted to move .. explaining to people how much the taxes will be a s how much the monthly bill is, for only 2 people in the house currently; not even running the pool! Ridiculous.

My personal thought for this is that Pluris already charges us enough to make up for any expenses they have to contend with for any rising costs in the economy or whatever else there is.

We would most appreciate to decline any rate increases for our community; indefinitely.

Respectfully,

Annika Martin
