RE: FPSC Inquiry 1431009C

Dear Mr. Kukwa:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

You expressed a concern about recent rate increases. On March 7, 2023, the FPSC approved a mid-course correction to the fuel factors and granted preliminary interim storm restoration charge for FPL.

Utilities do not earn a profit on fuel charges. The fuel and capacity cost component of customers' bills is set for each calendar year, but mid-course corrections are used when a utility's costs increase or decrease significantly in the interim. Under Commission rules, a utility must notify the PSC when it expects an under- or over-recovery greater than 10 percent.

The adjusted fuel factors reflect unrecovered fuel costs incurred in 2022. The interim storm restoration recovery charges are costs associated with named storms and will replenish each utility's storm reserve fund. Interim storm restoration charges are approved for a 12-month recovery period and are subject to refund, with interest, pending further review once the total actual costs are known for each utility.

FPL's approved charges include the new fuel factor and the preliminary approval for recovery of \$1.5 billion in interim storm restoration costs for Hurricanes Ian and Nicole, as well as the remaining costs from Hurricanes Michael, Sally, and Zeta.

The next fuel cost hearing will be held on November 1st, 2nd and 3rd. During the hearing, FPL and the other three electric companies regulated by the Florida Public Service Commission will present their projected 2024 fuel and purchased power costs, true-up previous estimates for 2023 incurred costs, and true-up 2022 costs to actual costs. Recovery of capacity, conservation, and environmental costs will also be considered. The Office of Public Counsel will represent the interest of consumers. You may watch the hearings live or afterwards by using the following link:

<https://www.floridapsc.com/watch-archive-psc-events>

We appreciate you sharing your views and will add your correspondence to both Dockets 20230001 and 20230017 regarding the mid-course correction and the storm restoration recovery, respectively.

Customers who are experiencing difficulty in providing payment on their account can contact the following resources for financial assistance:

* Low Income Home Energy Assistance Program --- <https://www.floridajobs.org/community-planning-and-development/community-services/low-income-home-energy-assistance-program/find-your-local-low-income-home-energy-assistance-program-provider-for-help>

* Elderly Electric Assistance (EHEAP), which provides assistance for home-energy emergencies to qualified, low-income households with at least one person 60 years of age or older. To find out about qualifications, you may contact your county's local EHEAP agency, or by calling 1-800-963-5337.

If you have any questions or concerns please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Ellen Plendl

What the HELL did you do to our electric bills? This is a joke. Up 25% in one month? I voted for you, but that won't happen again. Your electric power is paid for by us. I never thought I would say this, But Ron you can kiss my ASS. I will have to move out of Florida thanks to you.
