Item 10

VOTE SHEET

FILED 11/9/2023
DOCUMENT NO. 06015-2023
FPSC - COMMISSION CLERK

November 9, 2023

Docket No. 20230072-EI – Petition for approval of shared solar tariff change, by Tampa Electric Company.

Issue 1: Should the Commission approve the proposed changes to TECO’s Shared Solar Rider Tariff?

Recommendation: Yes, the Commission should approve the proposed changes to TECO’s Shared Solar Rider Tariff, as shown in Attachment A of staff’s memorandum dated October 27, 2023, contingent upon TECO’s compliance with certain program implementation provisions and reporting requirements described below.

First, incremental revenues from this program that exceed the Sun Select revenue credits approved in the 2021 Settlement should be recorded as a credit to the Fuel and Purchased Power Cost Recovery Clause (Fuel Clause) to offset expenditures for fuel.

Second, TECO should manage its SSR-1 Tariff program subscriptions to ensure that the proportion of energy sales of residential and commercial customers in the RS and GS classes to total energy sales (all classes) is, in the aggregate, no lower than thirty percent.

Third, in its marketing of the revised program, TECO should not claim or imply that program revenues are earmarked for or contribute to the construction of new solar resources.

Finally, TECO should submit annual reports in March of 2024, 2025, 2026, and 2027 with data for the prior calendar year, detailing the following: 1) the number of revised SSR-1 Tariff program participants, amount of energy sales, waiting list levels, and revenues collected, by subscription level and by rate class; 2) the incremental revenue, above the Sun Select revenue currently included in base rates, credited to the Fuel Clause; 3) a summary of TECO’s key findings regarding customer adoption of community solar programs and its customers’ desire to reach decarbonization goals; and 4) a detailed description of whether and how the results of the program have impacted TECO’s generation planning.
