Adam Teitzman, Clerk
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

Re: Docket No. 20230114-WS; Application for certificates to provide water and wastewater service in Volusia County by Applegate Utility, LLC

Dear Mr. Teitzman:

This letter will serve as the response of the Applicant to the Florida Public Service Commission's "deficiency letter" issued in the above-referenced matter on November 13, 2023. I have outlined below each of the three deficiencies raised in the Commission's letter and the utility's response to each.

1. **Filing Fee.** Rule 25-30.020(2)(a), Florida Administrative Code (F.A.C.), states that all applications for an original certificate filed pursuant to Section 367.045, Florida Statutes, shall pay a filing fee based on a utility's existing or proposed capacity. Pursuant to Rule 25-30.020(1), F.A.C., the utility must pay a separate filing fee for water service and wastewater service. Rules 25-30.020(2)(a) 1 and 25-30.020(2)(a)2, F.A.C., require a filing fee of \$1,500 for water service and \$750 for wastewater service, for a total filing fee of \$2,250. The Utility paid a filing fee of \$1,500. Please remit the remaining filing fee balance of \$750.

Utility Response. The Utility filed a supplement to Exhibit A to its application on October 20, which provided a listing of the number and types of customers served by the Utility. The system is currently serving 88 wastewater customers and 144 water customers and is at buildout. The filing fee for that size system is \$750 for water and \$750 for wastewater under the referenced rule.

2. **Financial Statements.** Rule 25-30.034(1)(i)(1), F.A.C., requires that the applicant provide a detailed financial statement (balance sheet and income statement), audited if available, of the financial condition of the applicant, that shows all assets and liabilities of every kind and character. Although the applicant provided a balance sheet, there was no income statement in the application filing. Please provide the income statement for the entity the Utility is relying on for financial support.

Utility Response. The referenced rule deals with financial statements for the "Applicant". As noted in the application, the utility entity that is the applicant is a new entity and has no financial statements to date. However, the utility chose to file a balance sheet for the related entity which will provide funding to the utility as needed in order to demonstrate "financial ability". The submission of an income statement for that related entity is not

required by the rule and as such, we do not believe it represents a “deficiency”. In addition, we do not believe providing such a statement has been required in the past by the Commission in addition to a balance sheet in similar situations. However, in an attempt to be of assistance, we are attaching a recent “profit and loss” statement for the related entity.

3. **DEP Compliance.** Rule 25-30.034(1)(j)(3), F.A.C., states the applicant shall provide a copy of the utility's most recent DEP and/or county health department sanitary survey, compliance inspection report, and secondary standards drinking water report. Please provide the Utility's most recent DEP compliance inspection report and secondary standards drinking water report.

Utility Response. Attached hereto is the most recent DEP compliance inspection report.

If you need anything further or have any questions in this regard, please let me know.

Sincerely,

SUNDSTROM & MINDLIN, LLP

NOTE: Results indicating non-detection with a reported lab MDL >50% of the MCL will not be accepted for compliance.

*Results must be reported with appropriate qualifiers in accordance with Florida Administrative Code Rule 62-160, Table 1. Results qualified with A, F, H, N, O, T, Z, ?, *, are unacceptable for compliance with 62-550. Results qualified with a J, Q, R, or Y must be accompanied by written justification and will be evaluated on a case by case basis. To avoid a monitoring violation, unacceptable results must be replaced with acceptable results from samples collected during the same monitoring period.
