Not sure if you need a copy of this. Forwarded pluris letter to customer. Do you need to send to the clerk's office?

Thanks

Subject: Pluris Water Price Increases for Wedgefield Customers

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I'm writing to encourage you to oppose Pluris's plan once again to increase the water price to Wedgefield customers. The history of their frequent price increases, lawsuit win finally against Pluris for poor water quality, and how much more we pay than is customary has been presented to the Public Service Commission. In addition, the price increases Pluris is requesting should not reimburse Pluris for their fees paid to Wedgefield customers as required in the result of the lawsuit for poor water quality.

We are at the mercy of their price gouging and poor water quality for over 20+ years. What Pluris has done fits the definition of a monopoly- "in the absence of government intervention, a monopoly is free to set any price it chooses and will usually set the price that yields the largest possible profit."
